WHAT IS A CAREER HERO?

Have you ever noticed how average, ordinary workers are a lot like superheroes?

Seriously. They might not wear spandex bodysuits (well, except for dancers), but many do wear uniforms or distinctive clothing that marks them as someone who is there to help you.

Speaking of helping people, isn't that exactly what both superheroes and workers do all day long? Whether it's the guy who paints your house or the lady who helps you get a loan to buy a house, people in careers are there to help you.

"But wait," you say, "Superheroes have special abilities. They have been through rigorous training, and have an arsenal of highly-specialized equipment to fight the forces of evil."

Exactly. And Career Heroes are no different. Performing each job takes a unique set of skills and knowledge. Some careers take years of training, and most require special tools that must be mastered.

In fact, we thought Career Heroes were so special that they deserved their own set of trading cards. Each card features a different Career Hero and details the kinds of feats they perform on the job, the tools they have mastered, and the training they needed to qualify for their job.

This workbook introduces you to a few of the hundreds of Career Heroes out there making the world a better place. It also describes the 6 different types of Career Heroes: Doers, Thinkers, Creators, Helpers, Persuaders, and Organizers. Maybe one of these types sounds a lot like you. Do you have what it takes to become a Career Hero?

CAN YOU HAIKU?

Haiku poems are unrhymed traditional Japanese poetry. They are very short, just 3 lines, with 17 syllables total. The first and third lines have 5 syllables and the second line has 7 syllables. Most Haiku poems describe some detail of everyday life with a personal reaction. The poems have two sections. The poet moves from description to reflection. Try to create an image of yourself or a career with just a few words following the Haiku format. Here are 3 samples to help you get started:

The Accountant:

*Adding, subtracting
Calculator on the desk
Numbers never stop*

The Vet:

*The animals come
Each day the doors open wide—
Owners look like them*

Susan:

*A large broad smile
Her wide open brown eyes blink
Happy in her skin*
