

Mock Job Interview Activity

Mock Job Interview Activity is a fun way to teach students about proper interview techniques. The activity includes a sample script for a bad interview and a good interview along with a tip sheet and teacher instructions.

Pocket Resume

Pocket Resume is a handy pocket reference to keep track of work experience and education information needed for filling out job applications.

Who Needs Math/Science?

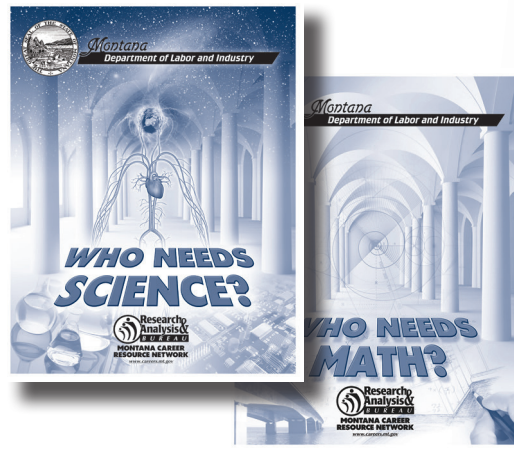

To answer the age-old question “When am I ever going to need this?” Who Needs Math? and Who Needs Science? provides interviews and activities that show that there is a wide variety of careers that require math and science.

Montana Career Guide

The Montana Career Guide provides career planning information such as an interest assessment, occupational wages and outlook, postsecondary education, financial aid, resume writing, and job search.

Get the right tools to help your students plan for their futures.

Montana Department of
LABOR & INDUSTRY
Career Resources

We have just what you need to help students plan for life beyond high school.

Each publication and MCIS has been designed specifically for the career development needs of each age group. Everything is available at no cost. They can be accessed at www.careers.mt.gov or you can place an order by calling 800-541-3904 or emailing mcrn@mt.gov.

The Montana Career Information System (MCIS) is an internet-based career information delivery tool available at no cost to schools, students and parents.

MCIS is the foundation of most high school career programs. The system provides free assessments, electronic portfolio, course planner, occupation information with Montana and national data, state and national colleges and financial aid, resume creator, Reality Check budget creator, and application planner plus much more. Call us to get your school's log in information.
